

THE ZAKA COLLECTION

CURATED BY
PRISCILLA MUGURE

Investment-Grade Gemstones of Tanzania

Unprecedented access to the highest tier of the global gemstone supply chain.

Zaka Consortium secures direct, consultant-led access to the 'Crown Jewels' of East Africa.

By bridging the gap between the African soil and the private collector's vault, we bypass traditional retail paradigms to offer ethically sourced, masterfully faceted stones of extraordinary AAAA quality.

A lapidary transformation that begins deep within the Tanzanian earth.

Every stone in this portfolio traces its provenance exclusively to the Merelani Hills of Tanzania—the only known deposit of Tanzanite on Earth. The journey from a raw, dichroic crystal to an investment-grade masterpiece requires lapidary artistry that respects the stone's natural geometry and maximises its inherent light return.

The visual signature of AAAA Grade Tanzanite.

Royal Blue Core

The deep, velvety primary hue that defines peak saturation in investment-grade stones.

Eye Clean Transparency

Flawless internal structure allowing total light penetration and reflection, exponentially multiplying carat value.

Violet Flashes

The secondary pleochroic colour that dances across the facets as the stone moves, a hallmark of uncompromised rough selection.

PREMIUM TANZANITE

STONE NO. TZ-084

Origin: Merelani Hills, Tanzania

Flawless saturation and pristine step-cut faceting.

Carat Weight:	39.50 ct
Shape / Cut:	Emerald Cut
Colour Grade:	AAAA – Royal Blue / Violet
Clarity:	Eye Clean
Treatment:	Standard Heat

Trust Indicators:

- ✓ Government Certified
- ✓ Available for immediate purchase
- ✓ Wholesale and private collectors welcome
- ✓ Secured insured international shipping

PREMIUM TANZANITE

STONE NO. TZ-091

Origin: Merelani Hills, Tanzania

Shape / Cut:	Heart Cut
Colour Grade:	AAA+ – Deep Violet/Blue
Clarity:	VVS (Very Very Slightly Included)
Treatment:	Standard Heat

- ✓ Government Certified
- ✓ Available for immediate purchase
- ✓ Wholesale and private collectors welcome
- ✓ Secured insured international shipping

Exceptional pleochroism—capturing deep violet violet flashes under incandescent light.

PREMIUM TANZANITE

STONE NO. TZ-104

Origin: Merelani Hills, Tanzania

Technical Grid

Shape / Cut:	Trillion Cut
Colour Grade:	AAAA – Vivid Royal Blue
Clarity:	Eye Clean
Treatment:	Standard Heat

- ✓ Government Certified
- ✓ Available for immediate purchase
- ✓ Wholesale and private collectors welcome
- ✓ Secured insured international shipping

Precision faceting maximises the stone's internal fire and light return.

A benchmark specimen for classic high-jewellery mounting.

THE CURATOR'S SELECTION

LOT NO. TZ-PAIR-01

Origin: Merelani Hills, Tanzania

Shape / Cut:	Matched Oval Pair
Colour Grade:	AAAA – Royal Blue / Violet
Clarity:	Eye Clean
Treatment:	Standard Heat

- ✓ Government Certified
- ✓ Available for immediate purchase
- ✓ Wholesale and private collectors welcome
- ✓ Secured insured international shipping

A perfectly matched pair. Exceedingly difficult to source with identical pleochroic shifts.

Why Invest? Translating Brilliance into Utility.

Geopolitically Stable Sourcing

Assets extracted strictly from stable, regulated East African jurisdictions under the direct oversight of the Ministry of Mining.

Rarity-Driven Appreciation

Bounded supply mechanics. Tanzanite, limited to a single 7km strip on earth, represents an appreciating asset as primary reserves deplete.

The Financial Anatomy
of a Gemstone

Portable, Divisible Wealth

High value-to-weight ratio. Physical assets that offer frictionless international mobility, insulated from digital market volatility.

Generational Legacy Asset

Impervious to time. A hard asset designed to be passed down, holding molecular memory and intrinsic value across generations.

SPECIFICATIONS OF A MUSEUM-GRADE SPECIMEN: STONE NO. TZ001

Mass & Geometry

39.50 Carats
Precision Emerald Cut

Colour Profile

AAAA Grade
Intense Royal Blue with
Violet Flashes
